For plain blinds (with no illustration printed on) deduct 20%

Please allow 3 weeks from date of order to delivery.

1. These prices are based on recess widths, not fabric widths. To calculate the price, follow the measuring instructions.
2. Carriage will be charged at £8.50 up to 4 foot and £20.00 over 4 foot but there will be an extra charge for items posted to overseas addresses including Channel Islands, Southern Ireland & Scottish Isles. Please ask for a quotation.
3. Personal shoppers are always welcome at our workshop but please allow 3 weeks between ordering and collection.

We supply either spring roller mechanism with central pull cord, or a 'Sidewinder' which offers the following benefits.

- Works on a controlled ratchet principle rather than the traditional spring loading.
- Enables you to raise or lower the blind with ease and precision.
- Your blind stays exactly in position where you require.
- No central pull cord required. The control bead chain hangs out of the way at the side.

**Only £6 extra We do recommend a 'sidewinder' mechanism on large blinds.**
